The screenshot shows a browser window with four tabs open: 'Google Gemini', 'Google Gemini', 'Google AI Studio', and 'canaaneye-hash/canaaneye.github.io'. The active tab is 'canaaneye-hash/canaaneye.github.io'. The page displays a GitHub repository for 'canaaneye-hash/canaaneye.github.io'. The 'Settings' tab is highlighted with a blue oval. The repository has 1 branch and 0 tags. A commit titled 'Initial commit' was made by 'canaaneye-hash' at 20a0245, 3 minutes ago, with 1 commit. A file named 'README.md' was also committed. The 'About' section indicates no description, website, or topics provided. It shows 0 stars, 0 forks, and 0 watching. The 'Releases' section shows no releases published and a link to 'Create a new release'. The 'Packages' section shows no packages published and a link to 'Publish your first package'. The bottom of the screen shows a Windows taskbar with various pinned icons and the date/time: '下午 02:21 2025/11/17'.

SETTING

The screenshot shows the GitHub Pages settings page for a repository. On the left, there's a sidebar with various repository settings like General, Access, Collaborators, Moderation options, Code and automation, and Pages (which is highlighted with a green oval). The main content area is titled "GitHub Pages" and contains sections for "Build and deployment" and "Visibility". Under "Build and deployment", there's a dropdown menu for "Source" set to "Deploy from a branch". Below it, there's a "Branch" section with a note that GitHub Pages is currently disabled. At the bottom of the main content area are "Save" and "Preview" buttons.

- 左邊欄搵 Pages • Under “Build and deployment” → Source 擄：

Deploy from a branch

- Branch 擄：main / (root) • 按 Save

This screenshot shows the same GitHub Pages settings page as the previous one, but with a blue oval highlighting the "Deploy from a branch" dropdown menu. Inside the dropdown, "main" is selected, and the path "/(root)" is chosen. A blue oval also highlights the "Save" button at the bottom of the "Source" section. The rest of the interface and the Windows taskbar at the bottom are identical to the first screenshot.

Save 完之後，大約 30 秒 ~ 1 分鐘之後，你網站就會自動生成。

The screenshot shows a browser window with several tabs open, including Google Gemini and Google AI Studio. The main content is a GitHub repository page for 'canaaneye-hash/canaaneye.github.io'. The 'Code' tab is active. At the top right of the main content area, there is a 'Add file' button, which is highlighted with a blue circle.
